

Waste info

Dear Customer,

The Rotterdam C.RO Ports Terminal has obtained a new environmental permit that becomes mandatory as from 9 November 2018.

This permit demands for waste information on all waste shipments that pass the port of Rotterdam (= Load/Unload/Transshipment).

The mandatory “Waste Information” can be entered in C.web, manually or via EDI.

From 9 November 2018 units that contain waste cargo and pass Rotterdam cannot be handled until the “**Waste info**” is entered via C.WEB.

Waste Name	Eural Code	Stream Number	Producer	Name	Address	Country	City
sludge	125066*		Exporter	name 1	street name and n	GB	Manchester
			Importer	name 2	street name and n	NL	Rotterdam
				name 3	street name an x	NL	Den haag

All input fields are mandatory with the exception of the stream Number which is optional

TEMPLATES

Use a template in “create booking request” for recurring waste info.

Watch the tutorial on C.Web

VIA EDI

The waste information can be communicated via the bookingRequest through xml.

We refer to our updated version of our “C.WEB EDI document” describing the structure of the Waste info.

The link to this document is displayed below this Help page.

EDI

Our EDI solution is ready! Click [here](#) to read our EDI documentation.

Contact us via webmaster@cweb.lu for more info.
